California trks?

safety: I thanked Izaak Granado for locking out smart cart while he was picking up spilled stack off the ground. Not its mart cart while he was picking up spilled stack off the ground. Also instructed Blaine Johnson 2 guys to not front load storage line as he was about to do it to get his stock. corrugator: very good night, very little downtime and 270,000 lft. Truck driver

flexo: running well, too, all machines are moving along rather nicely

shipping: completed C.Mills release, delivered 3 loads to Allpak, Frontier told us that they rather get their load tomorrow am since they didn't have forklift driver in tonight,

We are running out of room to store finished goods. I already took over one isle in roll pit and that is not enough !!!

- FYI: Hustler driver informed me that truck that dumps glass next door had an incident of broken hydraulic line and spilled oil on road, I talked to St. Gobain and they told me that they will work on getting the

spill cleaned up but as of now nothing has been done and oil is going into drain in roadway.

New batch of waste water is transfered but not treated.

· Semitrack frailer jumping glass?

Knew rightawas

Last night

- Who we called Shipping reciving guy

- When we called 9 to 9:30

- they said they d clean up - they were appling, locked like speedy dry - Called St. Gobain

Today

Called back 12:55pm - Thought it was over road hauler - Thought it was over road hauler - Asked me call call back after talking if ZB - Asked me call call back after

- Met@ 2:45pm - First they'd heard about
